THE SOUTH SIDE.

A. S. Mills has charge of the Advertising and subscription departments of THE REPUBLICAN on the South Side, which will be made a special feature of the paper. Two pages are devoted to Tempe and Mesa, and the interests of the South Side will be carefully looked after by Mr. Mills.

## Proclamation by the Governor.

EXECUTIVE DEPARTMENT,  
TERRITORY OF ARIZONA.

WEEKS, There will be convened at Los Angeles, California, on the 10th day of October, 1893, and remain in session for five days, an International Irrigation Congress, at which leading irrigationists of the United States, Europe, Asia and Australia will be present, and at which a number of important questions relating to irrigation law, irrigation securities, irrigation methods, etc., will be discussed and determined.

The importance of this congress has received recognition from the national government in a circular letter issued by the Hon. Walter Q. Gresham secretary of state. Dated July 7th, 1893, inviting the attendance of representatives from all foreign governments interested in the subject of irrigation. The department of the interior will be represented by an officer specially detailed to impart to the congress such information as may be in the possession of the government, obtained by surveys which have been carried on for several years by the United States geological survey under and by direction of the government.

As delegates will be present from all the states and territories where irrigation is carried on, and from foreign countries, where this mode of agriculture has been experimented with for years, the discussions will prove of the highest practical value to every citizen interested in the development of Arizona.

There is no question which presents itself to the western half of the United States, especially to our own section, which is of greater importance and fraught with more momentous results than the solution of the arid land problem. It means the reclamation of many millions acres of land, the employment of thousands of people, and the providing of myriads of families with farms and homes, resulting in the production of untold wealth.

Our people can point with pride to the wonderful results which have been achieved by irrigation within our own borders, in the reclamation of over half a million acres of land and the contemplated reclamation of a million more in the immediate future. This is enough to inspire enthusiastic hope in the possibilities of Arizona's horticultural and agricultural resources, and should serve to excite the deepest interest of our citizens in this congress.

The congress will no doubt discuss and by resolution adopt and recommend to the congress of the United States a policy by which these lands may be most easily reclaimed. Such a policy, if simple, practical, and involving little or no cost to the federal government, will in all probability be crystallized into a national law, and it may be that the states and territories comprised in the arid section will be given the reclamation of these lands.

Now, therefore, I, L. C. Hughes, governor of the Territory of Arizona, do hereby request and urge the people of the territory to interest themselves in the coming congress, both by the discussion of the subject and recommending to the proper officials the selection and appointment of delegates specially qualified to present the views of our people on the irrigation interests of Arizona, and by their practical experience to assist in bringing the deliberations to a successful conclusion.

In witness whereof, I have hereunto set my hand and caused the great seal of the Territory to be affixed at Phoenix, this the eleventh day of September, in the year of our Lord one thousand eight hundred and ninety-three.

Attest:  
L. C. HUGHES, Governor.  
C. M. BRUCE, Secretary of the Territory.

Statehood Convention.

ROOMS OF STATEHOOD COMMITTEE, PHOENIX, Arizona, Sept. 15, 1893.  
A territorial statehood convention is hereby called to assemble in the city of Phoenix on the 27th day of November, 1893, to adopt such measures as may seem appropriate to secure the admission of Arizona as a state and to select a suitable number of delegates to advance such cause before congress.The convention will consist of seventy members appointed as follows: Apache county 5, Coconino 4, Cochise 4, Graham 4, Gila 4, Maricopa 10, Mohave 4, Pinal 10, Pima 6, Yavapai 5, and Yuma 4.  
Each county will select its delegates to such convention in the manner it may deem advisable. It is earnestly hoped that the vital interest involved will insure the active cooperation of the entire people of the territory.  
Signed: J. W. BRADY, A. C. BAKER, Wm. CHRISTY, S. O. MURPHY, Henry E. KEMP, Jerry MILLAY, W. T. SMITH, Frank Cox, E. H. HALLER.  
Territorial papers please copy.

## "THIS IS HER."

The following unique salutory appears in this week's issue of the Gila Bend Arizonian:

"Me" and "me," we "lowed as how we could get out a noosepaper. This is her.

Without further introduction to the Arizonian's readers, "Me" and "Me" plunge in medias res and get out an issue of the Arizonian which is read with greater interest than any of its predecessors.

It was an even bet among those cognizant of the events of last week at Gila Bend that the Arizonian would not appear at all, and this uncertainty had the effect of attaching greater interest to its coming.

"Me" and "Me" excuse their advent into journalism in both the leading editorial and the chief news item of the issue, from which we would gather that the gentleman whom they are representing during his temporary absence is a person of nervous habits, hasty temperament, and addicted to the intemperate use of firearms and stinging invective.

We also believe that Col. G. M. Russell, who is so ably represented by "Me" and "Me" and who is now enjoying a recreation, will be pleased with the handiwork of his substitutes. In the first place the issue is an excellent one from every possible point of view, indicating that "Me" and "Me" have had other journalistic experience. In the next place Col. Russell will observe with pleasure that his friends, "Me" and "Me," in an account of the colonel's spirited altercation with Mr. Kaltenbach, have been disposed to deal fairly with him and have not permitted the columns of his own newspaper to inflame public opinion against him.

THE REPUBLICAN while it laments the sad opportunity which afforded "Me" and "Me" the temporary control of the Arizonian, gladly welcomes them into the "noosepaper" field, now that they're here.

Both are pleasant and versatile gentlemen. It is hardly necessary to remove their nom de plumes to disclose the personalities of Mr. James E. McMillan and Hon. J. M. Burnett, the former the able manager of the Peoria Canal company and the latter a foremost member of the bar of Arizona.

## NOT FAIR.

The extension of the time for the Gardiner Electric Light company to comply with its contract to furnish light for the city is hardly fair to those already in the business and amply able to furnish light—providing the city really wants the light. In the beginning this company was given a long time in which to complete its plant, and a further extension of sixty days is unreasonable. That it will ever be able to compete with the Phoenix Light and Power Company is not within the range of possibility, and that it is now or ever will act in good faith with the city is susceptible of doubt.

The members of the city council, in order to encourage the company, agreed to wait until October 1, for it to begin furnishing light and now, in the kindness of their hearts, the time is extended for sixty days longer.

The proper thing to have done under the circumstances, the history of the Gardiner company considered, would have been to declare the contract forfeited and have placed the order with the Phoenix Light and Power company, a responsible concern.

The winter season is approaching when the city should be well lighted, and the people are paying a heavy tax in various ways ungrudgingly for lights and other service.

It is a matter of business that the lights be furnished at the earliest possible moment. The council should waste no time with irresponsible concerns that may never be able to carry out their contracts.

The service performed by the Phoenix Light and Power company has on the contrary been satisfactory and it is entitled to the business.

THE SHERMAN act may not be repealed. The senators possess more backbone than the members of the lower house.

THE INFUX of visitors has commenced so early this season that by mid-winter the population will have been increased several thousand.

THE ELECTRIC car which run over the Washington street line Thursday night was a precursor of many others. Within a year electric cars will be running to all parts of the city. The electrical era in Phoenix has begun.

THE many friends of Judge W. H. Stilwell will be pleased to know that he will not remove from the territory, as stated by some of the Arizona papers, Judge Stilwell is recognized as one of the ablest lawyers in the west, and he will not abandon his large clientele in

Arizona for another location, not even to suit the persons whose wish was father to the thought. Judge Stilwell arrived in Phoenix yesterday to attend the session of the supreme court, and was warmly greeted by attorneys and other friends who recognize his ability and worth.

THE REPUBLICAN is of the opinion that Col. G. M. Russell of the Gila Bend Arizonian ought not to be confined in jail. It is willing to co-operate with the other newspapers of the territory in taking such steps as will result in his release.

## SURROUNDED BY MYSTERY!

## A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve forces that indigestion, dyspepsia, neuralgia, and indigestion, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. A nerve system like a telegraph system, as will be seen by the accompanying cut. The little wire lines are the nerves which convey the nerve force from the brain to the heart, just as the electric currents conveyed along the telegraph wires to every station, large or small. Ordinary physicians fail to regard this fact; instead of treating the nerve centers for the cause of the disorders arising therefrom they treat the part affected.

Franklin Miles, M. D., LL. B., the highly celebrated specialist and student of nervous diseases, and author of many noted treatises on the latter subject, long since realized the truth of the first statement, and his Restorative Nerve is prepared on that principle. Its success in curing all diseases arising from derangement of the nervous system is wonderful, as the thousands of unsolicited testimonials in possession of the company manufacturing the remedy amply prove.

Dr. Miles' Restorative Nerve is a reliable remedy for all nervous diseases, such as headache, nervous debility, prostration, sleeplessness, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is sold by all druggists on a positive guarantee, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. Restorative Nerve positively contains no opiates or dangerous drugs.

Sold by druggists everywhere.
